

SUNY-Wide Innovation

Dr. Lisa A. Stephens, University at Buffalo and Kim Scalzo, Executive Director of Academic Technology and Information Systems (SUNY Office of the Provost)

Innovative Instruction Technology Grants

Start Up funds entering their 8th round to all SUNY-wide (64 campuses) faculty and staff that are seeding a number of highly successful SUNY-wide initiatives including OER Services and Open Textbooks. Funds are targeted to individual faculty/staff innovations “technology in service of pedagogy”.

SUNY Performance Improvement Funds (PIF)

Start Up funds entering the 2nd round to all campuses, but unlike IITG’s, they require campus-level consensus and support. Often these initiatives are the “next step” from IITG’s, but must produce tangible results that can impact learning SUNY-wide and beyond.

FLEXspace: The Flexible Learning Environments eXchange

Featured this week in Campus Technology – an open repository to benchmark and share best practices regarding learning space design

SUNY Online (aka “Open SUNY”)

Aggregating the best of campus level courses to support seamless transfer and student access across New York State.
